Poster Caption Creator (Perplexity.ai)

Role: Campus Marketer

Audience: Students

Context: TechFest 2025 poster

Format: 20-word caption + 3 hashtags

Constraints: No emojis; energetic tone

Language: English

Caption:

TechFest 2025 is here! Innovate, compete, collaborate, and experience the future with technology, creativity, challenges, and unforgettable campus energy.

Hashtags:

#TechFest2025 #InnovateTogether #CampusEnergy

#3 Mock Interview Questions(Perplexity.ai)

Role: HR Trainer

Audience: BCA student

Context: IT internship

Difficulty: Entry-level

1. **Tell me about yourself.**
Tip: Briefly mention your BCA background, technical skills, projects, and career goals.
2. **Why are you interested in this IT internship?**
Tip: Connect the internship with your interest in technology and practical learning.
3. **Which programming languages do you know?**
Tip: Mention your strongest languages and provide examples of how you used them.
4. **Describe a project you completed during your studies.**
Tip: Explain the project's purpose, your role, technologies used, and outcome.

5. **What is the difference between a compiler and an interpreter?**
Tip: State that a compiler translates the entire program, while an interpreter processes code line by line.
6. **What is a database, and why is it useful?**
Tip: Explain that databases store and organize information for efficient access and management.
7. **What is the difference between primary key and foreign key?**
Tip: A primary key uniquely identifies a record; a foreign key links records between tables.
8. **How do you debug a program when it does not work?**
Tip: Describe checking errors, reviewing logic, testing small sections, and using debugging tools.
9. **How do you handle learning a technology you have never used before?**
Tip: Mention documentation, tutorials, practice projects, and asking questions when necessary.
10. **Why should we select you for this internship?**
Tip: Highlight your willingness to learn, problem-solving ability, foundational knowledge, and teamwork.

#4 Prompt: TEXT-chatgpt, IMG-CRAIYON.ai

Study Timetable Designer

Purpose: Create a realistic and effective 7-day study timetable for mid-semester examinations.

Role: Academic Coach

Audience: 2nd-year college student

Context: The student has upcoming mid-semester exams and needs a balanced 7-day preparation plan.

Format: Day-wise study timetable in a clear, easy-to-read table.

Constraints: Maximum 6 hours of study per day, include short breaks, revision, and practice sessions.

Language: English.

Task: Generate a practical and well-balanced study schedule that distributes subjects effectively across the 7 days, avoids overloading the student, and includes time for revision and practice.

Why this works: A structured prompt helps AI create a realistic, personalized, and achievable study plan instead of a generic schedule.

Poster Style: Clean, modern, academic, visually engaging, with a student-friendly layout, readable typography, study-related icons, and a professional educational theme.

OUTPUT:

Study Timetable Designer

Mid-Semester Examinations

#5 Prompt Card (chatGPT)

Debate Argument Planner

Purpose

Generate clear and balanced **pro and con arguments** for a debate.

Vague Prompt

“Give points for debate on AI.”

Structured Prompt

Role: Debate Coach

Audience: Students

Context: Debate topic — “**AI Replaces Teachers**”

Format: 3 arguments **for** + 3 arguments **against**

Constraints: Each point must be **under 30 words**

Language: English

AI-Generated Arguments

FOR — AI Can Replace Teachers

1. AI provides personalized learning and can adapt lessons to each student's pace and learning needs.
2. AI is available 24/7, allowing students to learn anytime without depending on classroom schedules.
3. AI can quickly provide explanations, practice questions, feedback, and learning resources across many subjects.

AGAINST — AI Cannot Replace Teachers

1. Teachers provide emotional support, motivation, empathy, and human connection that AI cannot fully reproduce.
2. Teachers understand students' emotions and difficulties and can adjust their teaching based on real-world classroom situations.
3. Teachers develop communication, teamwork, creativity, and social skills through meaningful human interaction.

Why This Works

A structured prompt produces **balanced viewpoints**, making it easier for students to understand both sides of a debate.

OUTPUT:SLIDES([Deep.ai](#))

comments:NOT accurate or good

The image displays four slides from a presentation. The first slide, titled 'AI Replaces Teachers?', has a dark background with a blue molecular structure. The second slide, titled 'FOR: AI | Replacing Teachers Argimems in Tavmer', lists arguments in favor of AI, including 'Personalized Learning' and 'Quick Feedback'. The third slide, titled 'AGMNST – AI Feplitracamer', lists arguments against AI, such as 'Emotional Support' and 'Social Skills'. The fourth slide, titled 'Conclusion', summarizes the points and states that AI can provide information but teachers guide them in learning.

AI Replaces Teachers?

FOR: AI | Replacing Teachers Argimems in Tavmer

Team 11.- Favor

- Personalized Learning – AI can adapt learning's start up and needs
- 24/7 API Availability
- 24/7 Suitable as heard
- Students, learn and questions anytime
- 24/1 E Fesinballity
- 28/7 hisback
- Quick Feedback
- AI I can instantly answers, corrections and practice exercises.

AGMNST – AI Feplitracamer

- Emotional Support - Teachers recultly empathy, motivations antumone orpanment
- Tathers recilic helps terdents for mgitucslng stheng
- Understand student's and classroom situations
- Social klips help students; not classrm enutions
- Social Skills - Tatchers is develop ranevelommatuning, teamits ang, and creativity.

Conclusion

- ▶ Ace powerofful learning veser and comcotit it oor out but is I power fully replace human teachers.
- ▶ Teachers hoclle outi ind lomoprtracoot human teachers.
- ▶ Teachers inf prodde tle guidances, creectinly, evordang, human consectial AI-ows pes thopeng, and then best connection.
- ▶ The best aproapnists may be as AI support teachers. came to poting, or come thir of TT conpe comengs and meroder othinets teachers. heph garting litte; rather to replacing them.
- ▶ Final Thought, "I AI can provide informatio, but teachers coidents them looting there.
- ▶ "AI can provide informatiders inspire students to learn."

#6 Prompt:

Role: Research Communicator

Audience: Thesis Examiner

Task: Write a clear and professional description of **Figure 2: Sales Growth Trend** based on the visual provided.

Context: The figure presents sales growth over a specific period. Explain what the visual shows and connect the observed pattern to meaningful findings.

Format: Write exactly **3 sentences**:

1. **Trend:** Describe the overall sales growth pattern.
2. **Comparison:** Compare the important changes or differences visible in the figure.
3. **Inference:** Explain what the trend suggests about sales performance.

Constraints:

- Avoid unnecessarily repeating exact numbers.
- Focus on the most important observations.
- Do not invent information that is not shown in the figure.
- Use formal, concise, academic language.

Language: English

Expected Output: A concise 3-sentence narrative suitable for inclusion in a **research report or thesis**.

Why It Works: This structured prompt transforms visual data into a clear narrative, helping connect graphs and tables with research findings.

PROMPT after ADDING DATA:

Create a **line chart** titled “**Sales Growth Trend**” using this data:

Year Sale
s

2022 40

2023 55

2024 70

2025 85

2026 100

X-axis: Year
Y-axis: Sales
Show all data points clearly.
Use a clean, professional style.

OUTPUT:

Here is your Sales Growth Trend line chart:

sandbox:///mnt/agents/output/sales_growth_trend.png

Download: [Sales Growth Trend](#)

The chart features a clean, professional design with:

- Clearly labeled data points (40 → 55 → 70 → 85 → 100)
- A smooth upward trend line with open-circle markers
- Bold axis labels and title
- Subtle gridlines for readability
- Removed top/right spines for a modern look

Now, for the 3-sentence thesis description you originally requested:

1. Trend: Sales demonstrate a consistent and steady upward trajectory from 2022 to 2026, indicating sustained growth over the observed period.
2. Comparison: The incremental increase remains uniform across all consecutive years, with no evidence of plateauing or decline.
3. Inference: This pattern suggests robust and predictable sales performance, reflecting effective business strategies and stable market demand.
