

Generative AI Creative Projects

This File contains a collection of creative projects and experiments created using **Generative AI tools**. The projects explore AI-generated images, artistic transformations, creative scenes, and 3D model generation using text prompts.

AI Tools Used

Ideogram

Used for generating creative AI images and transforming ideas into visual artwork using text prompts.

Meshy AI

Used for generating **3D models** from text prompts and exploring AI-assisted 3D creation.

Projects Created

Vintage Goods Train

Created a cinematic vintage goods train scene with fog, deep colors, and a royal atmosphere.

Lady in the Forest

Created an aesthetic vintage forest scene featuring a lady with an 1880s-inspired atmosphere and pastel colors.

Deep Ocean Exploration

Created a surreal underwater scene featuring a ship with powerful headlights, sharks, fish, and a mysterious deep-ocean environment.

Classical Lady Painting

Created a vintage classical painting-style portrait inspired by historical artwork and soft pastel colors.

3D Crystal Dragon

Generated a fantasy dragon as a detailed 3D model using Meshy AI.

3D Royal Steam Train

Generated a detailed vintage royal steam locomotive as a 3D model using Meshy AI.

Tools & Technologies

- Generative AI
- Ideogram
- Meshy AI
- Text-to-Image Generation
- Text-to-3D Generation
- AI Art Generation
- 3D Model Generation
- Prompt Engineering

Objective

The objective of these projects is to explore how **text prompts can be transformed into creative visual content and 3D models using Generative AI.**

Note

The images and 3D models in this repository were created as part of my learning and experimentation with Generative AI tools.

1. Vintage Goods Train in Fog

Prompt:

“A majestic vintage 1980s–1990s goods train running through railway tracks in thick atmospheric fog, long freight wagons, deep dark cinematic colors, rich shadows, wet tracks reflecting the light, misty surroundings, royal and grand atmosphere, realistic photography, dramatic lighting.”

2. 🌲 Lady in the Misty Forest

Prompt:

“A realistic vintage 1880s portrait of a young woman standing naturally in a quiet deep forest, surrounded by tall old trees, wildflowers, soft green plants and gentle morning mist, natural sunlight filtering through the trees, subtle pastel pink, dusty blue and muted green tones, authentic 19th-century atmosphere, slightly faded colors and natural texture.”

3. Mysterious Deep Ocean

Prompt:

“An enormous mysterious underwater world deep beneath the ocean, dark blue surroundings with glowing bioluminescent plants, a massive abandoned ship moving through the darkness with a powerful headlight cutting through the deep water, huge sharks and schools of fish surrounding the ship, mysterious underwater ruins in the distance, deep navy blue, turquoise and cyan tones, breathtaking surreal atmosphere.”

4. 🎨 Classical 1880s Lady Painting

Prompt:

“Transform the photo into an elegant 1880s classical portrait painting, preserving the person's recognizable facial features and natural appearance, soft pastel pink, dusty blue, cream and muted lavender tones, delicate brushstrokes, subtle canvas texture, soft natural lighting, romantic dreamy atmosphere, refined 19th-century clothing and a timeless museum portrait aesthetic.”

5. 🐉 3D Crystal Dragon

Prompt:

“A majestic fantasy dragon made entirely of translucent blue and purple crystals, large curved horns, detailed wings, glowing crystal eyes, sharp claws, intricate crystal scales, elegant fantasy design, full-body 3D model, highly detailed, realistic materials, dramatic lighting, isolated background.”

6. 🤖 Futuristic 3D Robot

Prompt:

“A small futuristic exploration robot with a sleek metallic body, glowing blue eyes, mechanical arms, wheels, antenna, detailed joints and mechanical components, friendly but advanced design, realistic materials, highly detailed 3D model, full body visible, studio lighting, isolated background.”
